We welcome the opportunity for you to witness one of today’s most outstanding Youth Sessions created. Our goal is to motivate the kids to take an appropriate active role in their future. Upon entering the school auditorium, students will immediately become excited by the hip-hop music being played from the local DJ that’s set up on the stage. Students quickly notice *signs, banners and other artful displays of motivational quotes from various popular motivational speakers, Hip-Hop and R&B artists, entertainers and community leaders.* They will also see visual aids reporting current research statistics and awareness information on life threatening issues such as **diseases, drugs, teen pregnancy, poverty, incarceration rates and various other social topics.** *The youthful bodies dance their way into their seats not knowing the motivational, educational and inspirational event that’s about to take place.*

Suddenly, the host of the “Reality Check” Youth Sessions, will step onto the stage hyping the crowd similar to that of a Hip-Hop Concert. Engaging in “Real Talk”, cracking jokes and reciting poetry, the host strategically introduces *various guest poets, performers, entertainers and speakers* that further captivate the attention of the youth while creatively instilling in them the **seriousness of making positive choices**, by using a teaching style the organization has labeled as **“Edu-tainment” (the culmination of education and entertainment) to evoke positive and conscious thoughts and actions among youth.**

Motivational poets stun the teenage audience with narratives, prose and rhymes that talk about teen pregnancy, sexually transmitted diseases, peer pressure, careers and other topics that affect the students daily...

Guest speakers include live testimonies that provide the students with a realistic first-hand look at how negative actions, re-actions, decisions and consequences will impact who they will become in the future!

*One of the many good points of the program is that it provides **solutions and alternative measures** for youths dealing with life's complexities. Currently, these are obstacles in which teens are not well equipped to handle. Students are not only shown, but given handouts that illustrate to them **various entrepreneurial ways of earning legal income such as landscaping, baby sitting, painting, event planning, washing cars and many other ways that involve "using their trade skills" or simply put in their language "Hustlin"**.*

*Students are also introduced to the concept of **savings and investments**.*

*"Reality Check" Youth Sessions are given in a culture format that today's youth can understand, **"Hip-Hop"**. It allows the students to easily relate to, and openly express themselves throughout the program. Ultimately, the program **offers advice and guidance that encourage the students to utilize sound judgment and make positive decisions as they go through life responsibly**. The "Reality Check" Youth Session leaves students, counselors, teacher and principles entertained, informed, inspired and wanting more...*

*Throughout the program, students and faculty are **educated, entertained and uplifted** with performances by **the school's choir, band, drama club and other student members and organizations**. On behalf of the student body, members of the school's Student Government Association are also given the opportunity to utilize their leadership skills by addressing the faculty on any concerns that students may have.*

As an optional component of the program, students participate in a structured talent show for prizes and recognition to positively showcase their talent to the entire school and encourage them to develop their artistic talents.

*As a further intervention method, Dreamzone365 conducts reoccurring assemblies, and group workshops. All schools are encouraged to participate in **ongoing** workshops, programs and structured activities.*

"Reality Check" Youth Session is available for Middle and High School, Churches, Community Facilities, Group Homes, Detention Centers and Juvenile Correctional Facilities.
